

Allowable Subject Matter

Claims 1 – 14 are allowed. The prior art of record fail to teach a navigation device comprising, among other limitations, a predetermined key for user activation wherein, a searching and outputting unit is configured to simultaneously output two or more facilities including information of two or more element facilities automatically together with related information of element facilities including a name of element facility, a distance from a present location, and a required time period from the present location, when operating the predetermined key for displaying information on desired types of element facilities on an already displayed map in the highway mode.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Yonel Beaulieu/ whose telephone number is (571) 272-6955. The examiner can normally be reached on Mon., Wed. & Thur. between 0900 and 1600.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas BLACK can be reached on (571) 272-6956. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
